MEMORANDUM

February 12, 2013

To: All Judges and Attorneys

From: Peter J. Calderone, Director and Chief Judge

Subject: Electronic Filing of Motions

We are pleased to announce that this week we initiated a key upgrade to the COURTS system that now allows the electronic filing of motions. This interactive form process will greatly reduce costs and time to file and receive motions. We have tested the system and have already received electronic motions from case parties that have been successfully filed.

The only motions that the system cannot currently accommodate are Motions for Temporary Disability and/or Medical Benefits, Motions for Emergent Medical Care and Motions to Restore since these motions require accompanying attachments. These three motion types should therefore continue to be paper filed directly with the appropriate court vicinage.

Complete information and procedures on the electronic motion filing process is available on the Courts-on-Line site and the Division's public website.
